NACCS SIGNS SERVICE PROVIDER AGREEMENT WITH 'ONESYSTEM LIMITED' REGARDING ADVANCE FILING RULES

Kawasaki, Japan- 14 December 2012- Nippon Automated Cargo and Port Consolidated System, Inc. (NACCS Center) signed the agreement with Service Provider 'Onesystem Limited' (Hong Kong SAR) to connect each other's system to enable Carriers and NVOCCs in foreign countries, the filers of the newly enacted Japans Advance Filing Rules, to report electronically through NACCS to Japan Customs as details shown in the attachment.

This is the third time NACCS Center signed the agreement on system connection with service providers regarding Advance Filing Rules.

*Advance Filing Rules: On March 30, 2012, a bill to amend part of the Customs Law passed through the Diet in Japan. This amendment enacts the Advance Filing Rules, which require a vessel operator or a NVOCC to electronically submit information on maritime container cargoes to be loaded on a vessel intended to entry into a port in Japan, to Japan Customs in principle no later than 24 hours before departure of the vessel from a port of loading. The electronic report from foreign filers will be made through service providers authorized by NACCS Center.

For further information, please visit NACCS Center website. Advance Filing Rules page has information on such as operations of the rules and list of authorized Service Providers.

Service Provider: Onesystem Limited
Mr. Jackson Mok
CEO

【Signing the agreement】

◆ Nippon Automated Cargo and Port Consolidated System, Inc.
Mr. Takuo Yoshimoto, President & CEO

I am very pleased to share that NACCS Center and Onesystem signed the service provider agreement on Advance Filing Rules at our headquarters today. Onesystem is the third service provider concluded a system connection agreement with NACCS Center on Advance Filing Rules.

Advance Filing Rules which will be implemented in March 2014 require a vessel operator or NVOCC to electronically submit detailed information on maritime container cargos to be loaded on a vessel intended to entry into a port in Japan, to Japan Customs in principle no later than 24 hours before departure of the vessel from a port of loading. For us NACCS Center, information from filers sent/received through authorized service providers connected to NACCS is the crucial point.

NACCS Center has been consulting with service providers who have developed their business at major seaports which has Japan bound container routes. I am confident that partnering with Onesystem based in Hong Kong, the third largest port in the world by the yearly container throughput, marks another milestone in building smooth operation of Advance Filing Rules.

We are delighted that we conducted signing ceremony today and look forward to cooperate even closer to build the system and be ready for March 2014.

◆ Service Provider (Onesystem Limited)

Mr. Jackson Mok, CEO

Onesystem is a 100 percent Hong Kong based service provider which located in a major city of China. We developed our own products in past years and providing logistics solution with different modules. It is including AMS & ISF services of CBP.gov of US Government once start up.

Starting from 2012, we got the opportunity with NACCS Japan and glad to compliance Japan's Advance Filing Rules which help to make ocean cargo screening more effective and safety.

We will keep going to operative with multi-national government and make cross border shipment information moving quick & accurate.
