(*1) Indicates the types of "M" (mandatory item) and "C" (conditional item) of the segment or segment group in United Nations standard messages.

(*2) Indicates the maximum number of repetitions of the segment or segment group in United Nations standard messages.

(*3) Indicates the types of "M" (mandatory item), "C" (conditional item), and "X" (unused item) of the segment or segment group in NACCS.

(*4) Indicates the maximum number of repetitions of the segment or segment group in NACCS.

When the segment or segment group is repeatedly used and the usage is different for each repetition order, the number in parenthesis in the maximum number of repetitions indicates the order of a segment or segment group used.

(*5) Indicates the item number and field name in the List of Input/Output Information of the NACCS Procedure Specification.
